IP BEST PRACTICES

Team Map

A best practice shared by Henno Janmaat.

Generated on 22 November 2026

Team Map

Build a physical map of where team members come from to get to know each other and build trust.

Key steps

Ask a group of people to take a piece of paper and write down where they come from, what the characteristics of that place are and what their coolest experience in that location was.

Make a compass on the floor, ask people to build a map by putting their paper on the floor, the relative distances between the locations needs to be like on Google Maps.

Get to know everybody better and build trust, by visiting all, by walking clockwise, taking 5 minutes per person to share and discuss.
