IP BEST PRACTICES

Community Building

A best practice shared by InspiringPeople.

Generated on 22 November 2026

Community Building

Letting like-minded people find each other across silos, without hierarchy in the way, boosts collaboration almost for free.

Key steps

Hierarchical structures often get in the way of people sharing information, even when they would clearly benefit from it. Actively connect people who share a common goal or interest across silos and let them exchange freely.

Since these communities run voluntarily and steer themselves, keeping them alive takes minimal effort — the only ask is that they share what they learn publicly, or feed their learnings into other initiatives.
