Office Fairy

Handing teams a small budget to decorate their own office space empowers people to make it genuinely theirs.

Key steps

People often feel disenfranchised by an office environment they didn't help shape, while the most innovative companies go out of their way to make the office feel like an extension of home — because that's where the magic happens when people work together.

Assign a small slice of the office budget to teams to spend on their own space, within safety rules like fire prevention. The result is a much cheaper, much more loved revamp than an official office redesign.
